Our Roots are Firmly Embedded in the West

And we could not be any more proud to call the Peace Region our home. Some very distinct characteristics make people in this region unique, deliberate, resourceful, creative, and community-driven. These characteristics set us apart from multinationals and box stores. We live and work in the community. Our families interact with yours. Our children play on the same teams and attend the same schools.

We know that we can rely on one another for support. And, we have relied on this community spirit for over 55 years. We celebrate our proud regional-ness and the great people that make up our organization.

At Northern Metallic, we take enormous pride in our people, their families, and the contributions that we make in all of the communities where we do business. It is important for us to connect on that level. At the end of the day, it is what makes us unique and different.

Given the choice, please remember the businesses that contribute to your community, your family, and your life. They give back and make it better for everyone. We are happy to include Northern Metallic, Paragon Oilfield Supply, Side Group, and our diverse business base among those who are making life better in our communities.

From our families to yours, thank you for your continued business.
