Featuring a cutting edge cobra head design, this spanner style winch bar provides secure engagement with the winch. The strategically crafted bend on the bar enables the cobra head to effortlessly navigate into challenging and hard-to-reach areas, facilitating easy and efficient securement processes.

- Hook design provides multiple contact points that provides excellent stability of the winch bar during operation
- Hook design prevents the bar from slipping off the winch cap
- Will not roll over when pressure is applied or elongate holes in winch cap
- Bent to allow easier use on step decks
- Ergonomic design maximizes the bar's leverage on the winch
- Box End easily releases tension on chain binders
- Not to be used as a cheater bar to tension chain binders
